*ويتوفر في مجموعة واسعة من الألوان.*
Woodshield Interior

Easy Clean
• The Polyurethane resin helps in effortless washing that keeps wood clean and beautiful.

Fast Drying
• A uniquely formulated resin with dryers leads to a convenient and quick drying solution that saves time, energy and manpower.

Low Odour
• Special Low Odour Solvents result in less smell during and after application.

Water Resistance
• Water repellent resins prevent moisture absorption for prolonged wood life and preserved natural warmth and beauty.

Good Flexibility
• Forms a flexible film that withstands constant wood expansion and contraction that minimises undesired effects like cracking; therefore, protecting and preserving wood investment.

Suitable for Doors & Windows

Available in Multicolor Stains and Clear Varnish, in Gloss and Matt.

Dehansat and Woodshield for Interior Finishes

Woodshield Interior is formulated to create a smooth and tough film that facilitates everyday use and cleaning of the wood surface. Its low odour formulation means less smell during and after the wood finishing process.

Suitable for all interior wood such as doors, trims, railings, windows, furniture, cupboards and frames.

Additional Features for All Woodshield Range

Water Resistance
• Water repellent resins prevent moisture absorption for prolonged wood life and preserved natural warmth and beauty.

Good Flexibility
• Forms a flexible film that withstands constant wood expansion and contraction that minimises undesired effects like cracking; therefore, protecting and preserving wood investment.

Painting Guide

Wood surface must be suitably prepared, clean, dry and free from traces of dust, dirt, wax and grease. The moisture content should not exceed 15% prior to coating.

**STEP 1**
- Ensure the wood surface is dry and free from dust and debris.
- Sand the surface of the wood thoroughly with #220 grit sand paper.

**STEP 2**
- Apply Woodshield to the wood surface.
- Wipe the dust from the surface using a clean cloth.

**STEP 3**
- Apply Woodshield to the wood surface.
- Remove any excess Woodshield using a clean cloth.

**STEP 4**
- Repeat steps 1, 2, 3 using #220 grit sand paper after 1st coat of Woodshield.

**For new wood**
- Step 5: Repeat again steps 1, 2, 3 using #220 grit sand paper after 2nd coat of Woodshield.

**Optional Step**
- Apply 1 coat of Jotun Wood Preserver before Step 1 and let it dry to protect the wood against fungus, termites and other insects.
